

## Tema Curs 8 Constantin Ioan

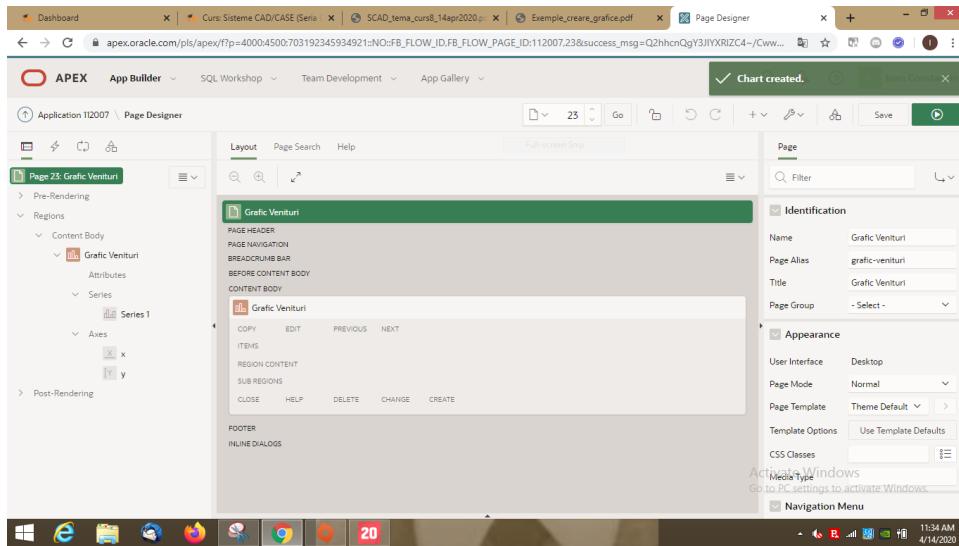

Cream un bar chart cu query-ul din screenshot-ul de mai jos:

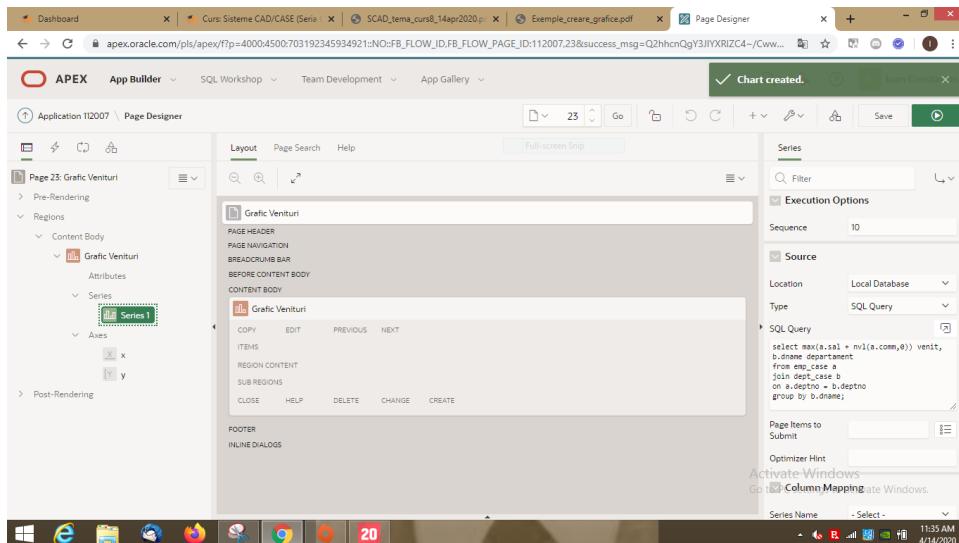

Setam Label Column si Value Column in urmatorul screenshot:

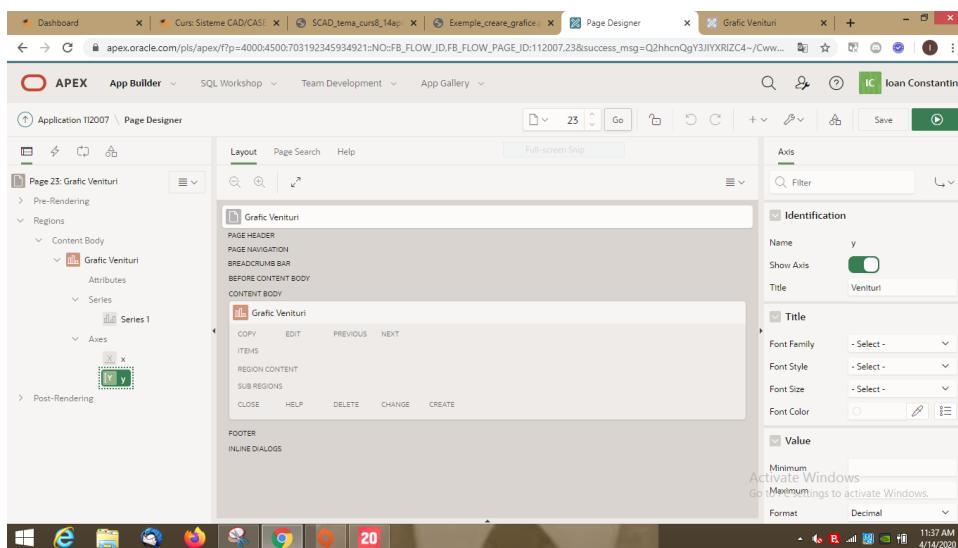

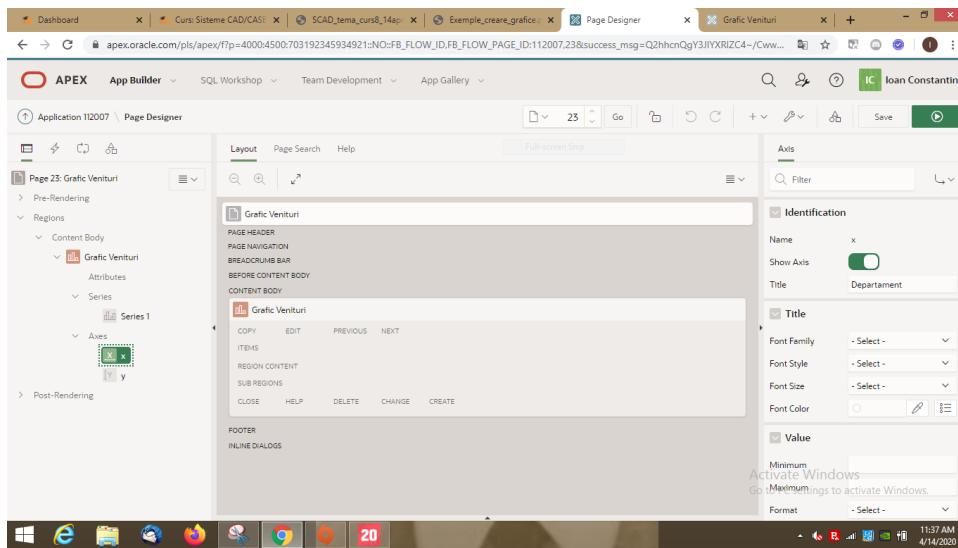

Ne este afisat mesajul "Chart Created" in urmatorul screenshot:

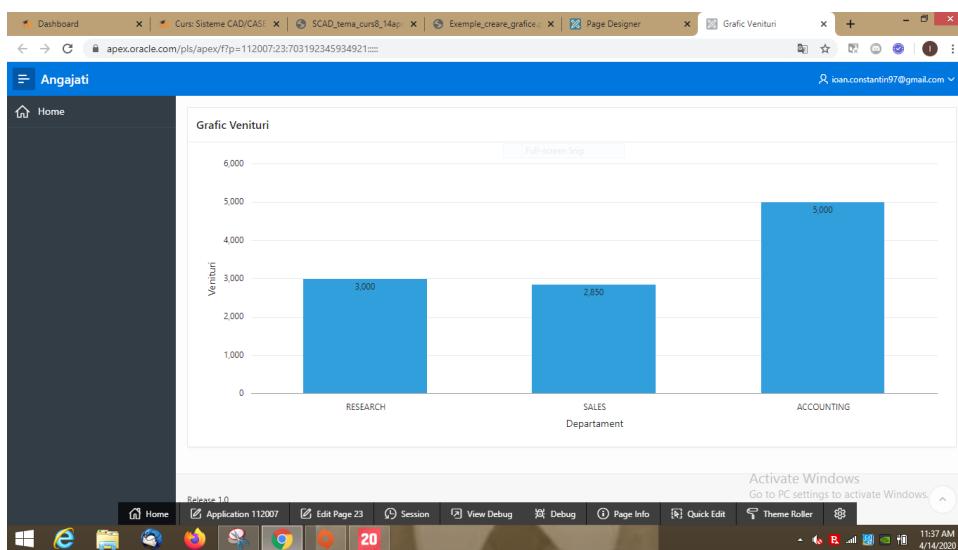

Putem observa query-ul de la inceput in sectiunea Source->Sql Query (in urmatorul screenshot):

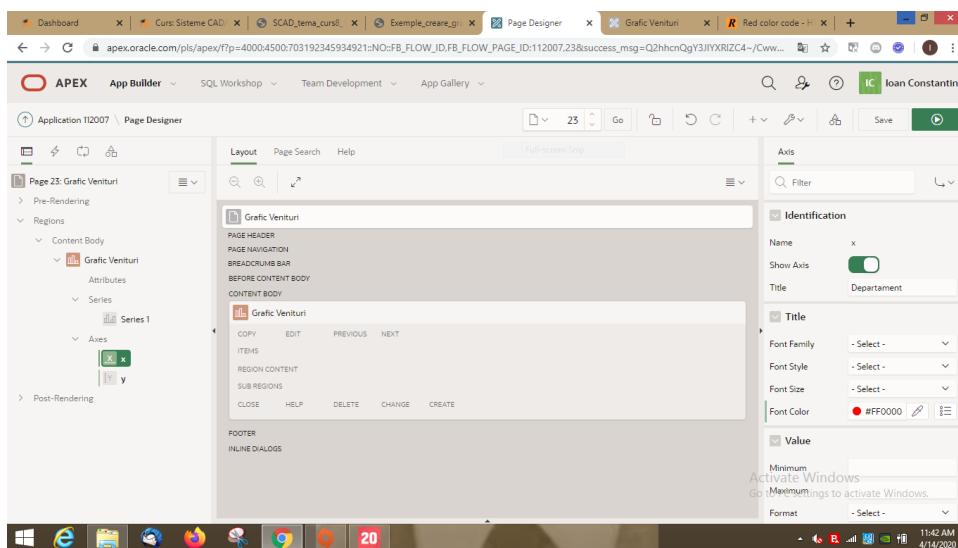

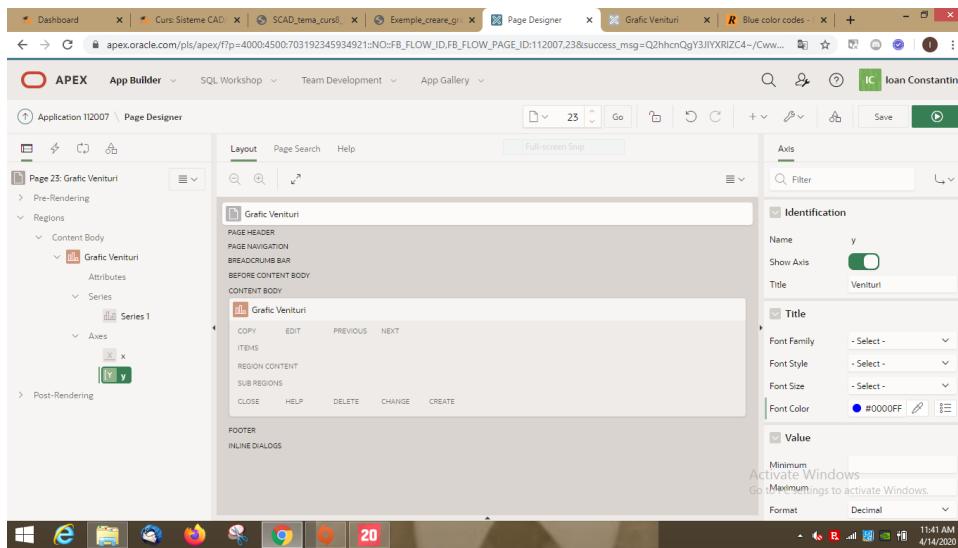

Denumim axele x si y Departamente si Venituri (in urmatoarele 2 screenshot-uri):

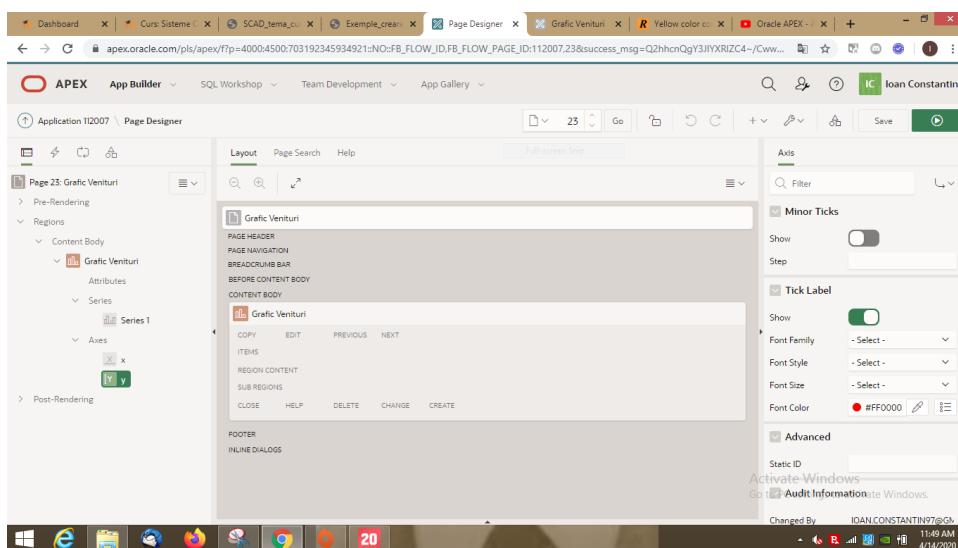

Graficul initial arata precum in urmatorul screenshot:

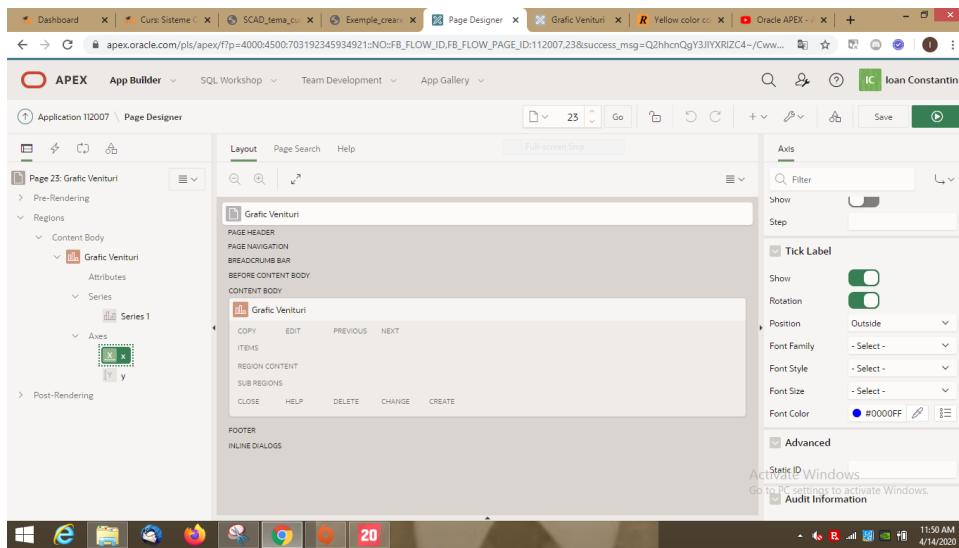

Coloram etichetele axelor in rosu si albastru (in urmatoarele 2 screenshot-uri):

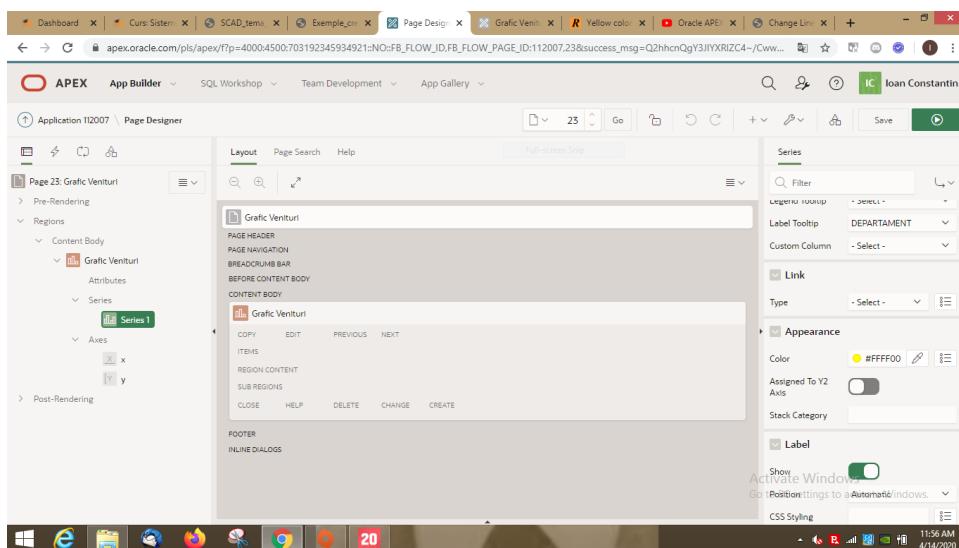

Coloram denumirile de departament si veniturile in rosu si albastru (in urmatoarele 2 screenshot-uri):

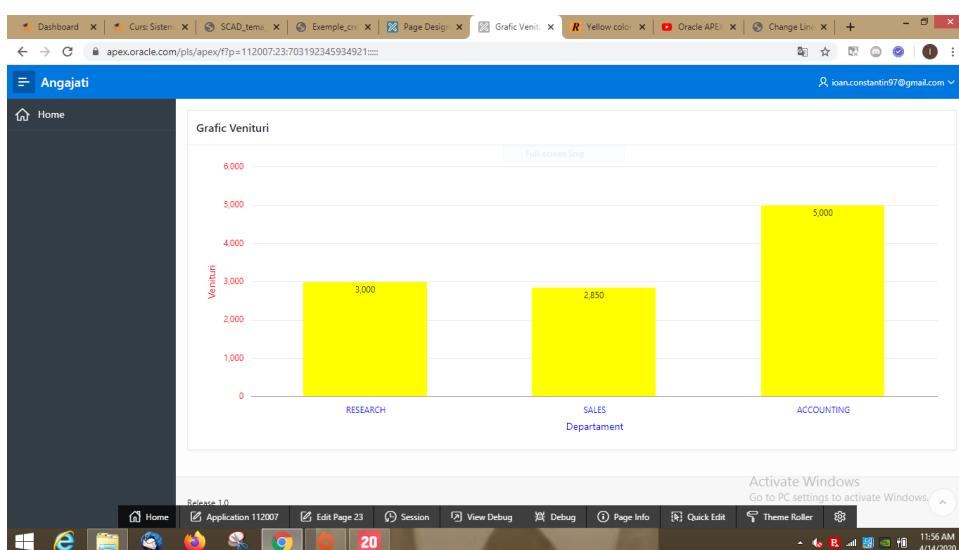

Coloram graficul cu galben (in urmatorul screenshot):

Graficul final este aratat in urmatorul screenshot:

Cream pie chart-ul cu query-ul din urmatorul screenshot:

The screenshot shows the Oracle APEX App Builder interface. In the center, there is a 'Create Chart' dialog box. The 'Source Type' is set to 'Table: SQL Query'. The query entered is:

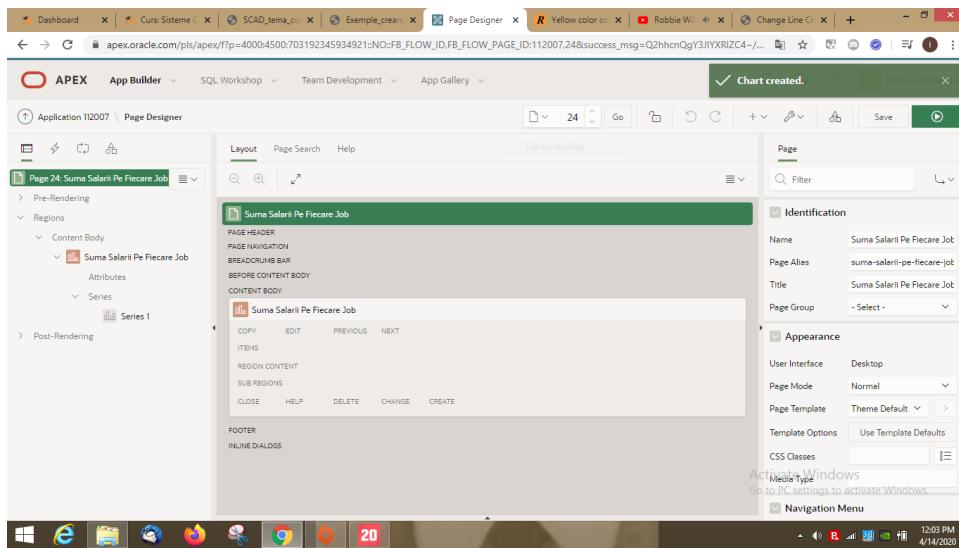

```
1 select sum(a.sal1 + nvl(a.comm,0)) venit, a.job job
2 from emp_case a
3 group by a.job;
```

Below the query, there is a 'Page Items to Submit' input field and a 'Maximum Rows' dropdown. At the bottom right of the dialog is a 'Next >' button.

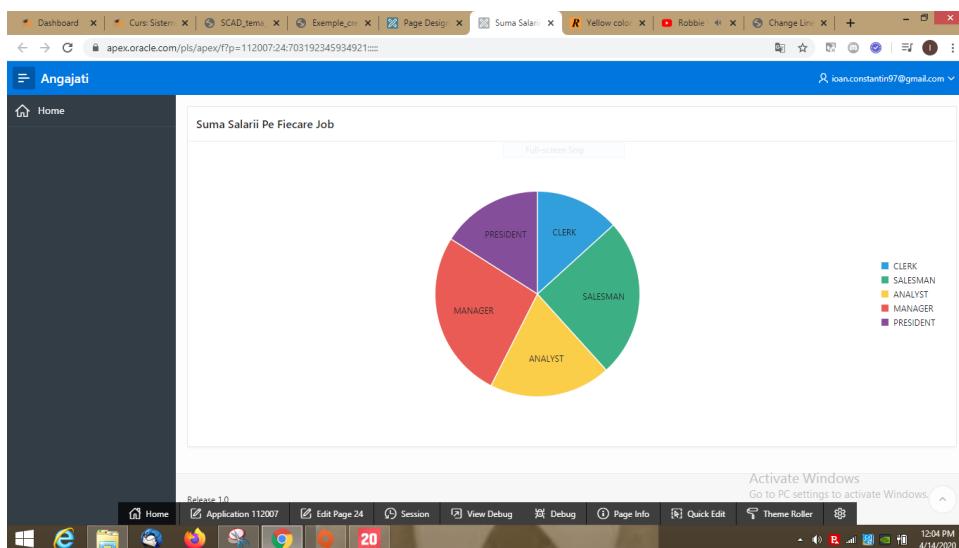

Setam Label Column "Job" si Value Column "Venit":

The screenshot shows the 'Create Chart' dialog with 'Column Mapping' settings. The 'Label Column' is set to 'JOB' and the 'Value Column' is set to 'VENIT'. The chart type is still 'Pie'. At the bottom right of the dialog is a 'Create' button.

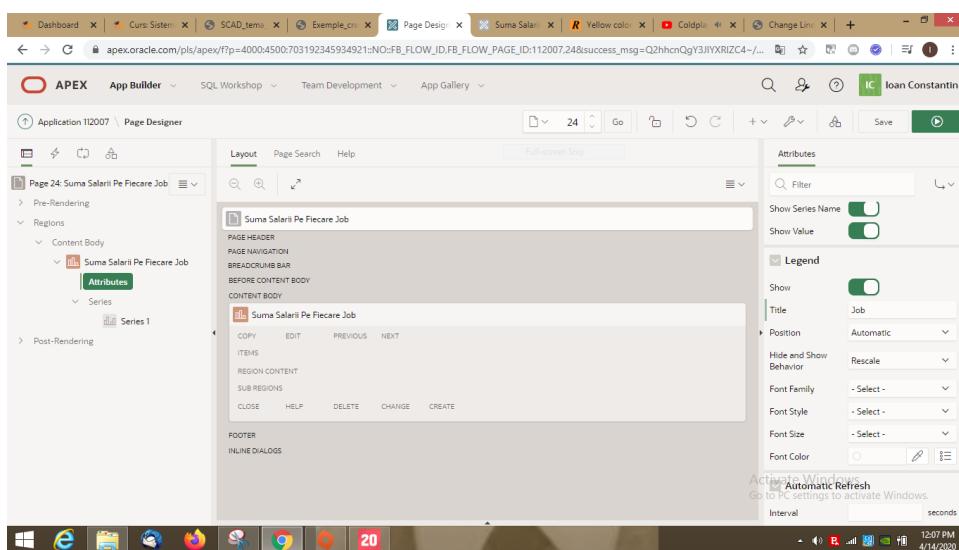

Ne este afisat mesajul "Chart Created" in urmatorul screenshot:

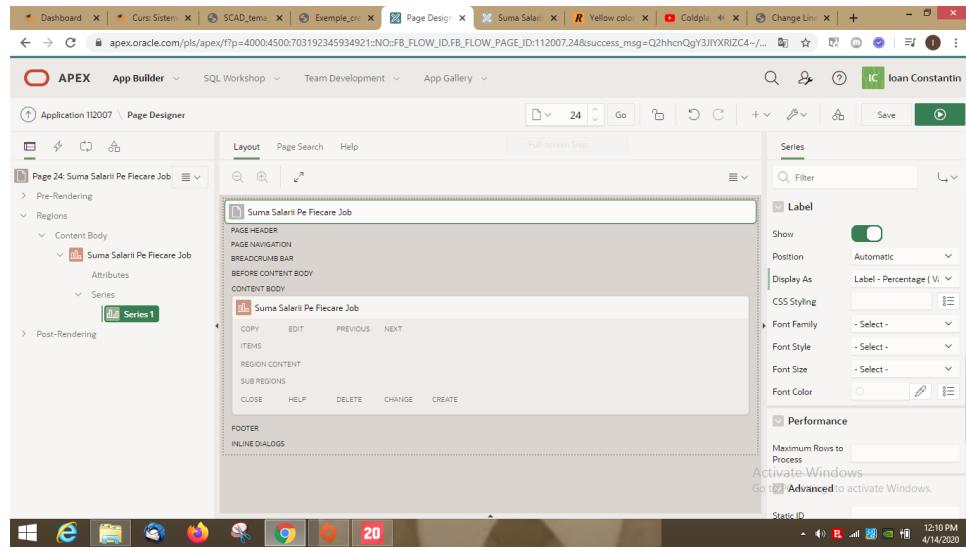

Graficul initial arata precum in urmatorul screenshot:

Setam titlul legendei ca fiind "Job" in urmatorul screenshot:

Setam Label Display-ul in "Label - Percentage (Value)" in urmatorul screenshot:

Graficul final este aratat in urmatorul screenshot:
